EXCITING NEWS

SOLAIRE[®] TEAMS UP WITH SALON OWNERS TO TAKE OUT THE COVETED SPRAY TAN AWARD

7 years in a row Solaire[®] Spray Tan has been a winner or finalist and this year is not different!

BEAUTIFUL BRIDAL SPRAYED WITH SOLAIRE[®] SPRAY TAN BY MESMERIZE SPRAY TANNING MELBOURNE

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

ABOUT US

Solaire® commenced in 1994 following the successful acquisition of a small home hire business and chemical manufacturing plant. At 21 years of age Adam Taylor divested the various business he was involved in (juice business, electrical business) to concentrate on the home hire and chemical manufacturing business.

The business was originally operated by Owner/Operator Adam Taylor whilst he undertook a civil engineering degree. Business growth occurred over the next two decades in line with the trend in the 90's and early 2000's of the increasing trend of the spray tan industry.

Solaire® has grown and diversified into spray tanning, following the global trend of sunless growth. The Solaire® spray tan brand being the most recognised and fastest growing brand on the Australian market. It is also the most awarded spray tan, winning the bridal awards (or being a finalist 7 years running).

THE BRIDAL INDUSTRY'S **MOST AWARDED**
SPRAY TAN! USE SOLAIRE®
FOR YOUR MOST IMPORTANT DAY!

Adam Taylor has successfully grown the business to include further vertical integration in larger cosmetic manufacturing plants and partnership's with the world's largest manufacturer of spray tanning equipment. Solaire® is now the largest independent importer and manufacturer in the tanning industry in Australia. In the last 12 months Solaire® has continued its growth of market share in Australia and has undertaken global expansion into the USA and UK market.

The spray tan is used by Dancers with the Stars, Miss Supranational contestants, patriots include Catrina Rowntree (as seen in the Geelong Police 000 ball) and numerous celebrities including WAG's of footballers, models, top body builders and of course; the clients. The aggressive marketing campaign that Solaire® employs ensure brand strength and can be seen on the website "as seen in".

EVERY COLOUR FOR EVERY BODY™

Solaire® truly are **THE SPRAYTAN SPECIALISTS™**. We carry over 40 different blends of solution. Solaire® is consistently named the **number one** brand of spraytan. We supply and are requested more than any other brand on the market. We are known for our Green, Violet and Red base solutions™. At Solaire® we don't believe that you should have to fit into one company's type of spraytan solution that is why we carry over **40 DIFFERENT TYPES of SPRAYTAN SOLUTION**. We can even manufacture your very own custom blend of solution. All our products blend to match the client's skin tone. Solaire® guarantees that if a business implements the entire system as does the client – they will achieve results that deliver the perfect spraytan! The bridal industry obviously agrees.

WHY SO AFFORDABLE?

We manufacture our own products then supply to you. Most brands buy via a private label from the manufacturer (like us) then take their own margin. The savings we make are passed on to you!

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

OUR MISSION - TO CONTINUE TO BE THE MARKET INNOVATOR

- To simply supply the best spray tan on the market to you at the best price. We can do this because we are a large manufacturer and our economies of scale mean we can pass the savings onto you.
- Only spray tan brand 21 years plus in the industry - 50 million+ spray tans
- Our spray tan solutions are 100% natural
- First to manufacturer -GBS (2001) -VBS (2008)
- First to manufacturer Dry Oil Spray Tan (2017)
- Colourfuze Complex® - New scientific blend of natural ingredients and complex protein and peptide structures (Structural Peptide Architecture™ (SPA))

Solaire® products are all made in a natural environment and our spray tan is free of nasty ingredients such as:

- Propylene Glycol
- Erythulose
- Synthetic DHA's
- Parabens
- Petro chemicals

PETA APPROVED

People for the Ethical Treatment of Animals (PETA) is the largest animal rights organization in the world, with more than 5 million members and supporters. PETA focuses its attention on the areas in which the largest numbers of animals suffer the most intensely for the longest periods of time: in the, in the clothing trade, in laboratories, and in the entertainment industry.

We also work on a variety of other issues, including the cruel killing of rodents, birds, and other animals who are often considered "pests" as well as cruelty to domesticated animals. PETA works through public education, cruelty investigations, research, animal rescue, legislation, special events, celebrity involvement, and protest campaigns.

THE OUTSTANDING FACT IS THAT SOLAIRE® IS MAD UNDER THE SUPERVISION OF THE MEDICAL INDUSTRY.

- It is for this reason alone that we can interpret research accurately and apply it directly to your health.
- For eg Erythulose - Which is in a number of spray tans and they all claim it is natural - is actually classified by NICNAS as genotoxic.(NICNAS_erythulose_public_report_2008). Genotoxic substances alter the genetic structure. Your guess is as good as ours, as to what the long term effect this will have .
- In this day and age of 2 hr tans Erythulose takes longer than 2 hrs to develop and does produce a lighter tan. The point ?? Why use it?? The only reason you would use a toxic substance is that the brand has no idea of the medical risks or the actual reason why you would use it. An inferior DHA requires Erythulose.

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

SOLAIRE®

Every brand claim to have the best spray tan so - what makes Solaire® so different? Apart from the reasons listed in the About Us.

WE ACTUALLY HAVE BASE TANS!

Have you ever noticed - No other brand advertised the base tans prior to 2011. It took them a couple of years to try and work out what we were doing (and they tried to copy by changing bronzers only) but our tans are made under medical license to a single piece of equipment that no one else in the tanning industry has access to.

Whenever you see these Trademarked logos
YOU KNOW THEY ARE MANUFACTURED BY US!

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

WE MANUFACTURE OUR OWN SPRAY TAN

Most other brands do not. It's that simple. So when they change manufactures, the formula changes. Have you ever found your perfect spray tan that was a private label only to have that brand then disappear? It happens all the time! It takes alot of money to set up a manufacturing plant. A small salon or home based business simply cannot afford the hundreds of thousands of dollars to set up a plant. The outcome is you either have the same product simply rebadged or you run the risk of the salon owner disappearing.

WE USE EXOTIC INGREDIENTS

"The exotic ingredients are now just becoming something the industry has started to use in their marketing and it's very flattering that Solaire® has brought this to the industry and others are copying it - it means that Solaire® is ahead of the market and therefore an innovator. Exotic ingredients are those not native to Australia. For example we have dead sea salt micro granules in our body scrub, argan oil infused BB creams, collagen forming marine extracts in our body products, wax products with exotic grape seed oils from the Mediterranean basin and make up with jojoba oil from the Sahara desert." .

Have you ever stopped and thought that spray tan brands that claim to have exotic ingredients but then claims to be Australian owned and made. Well that just doesn't make sense. You are either Australian made with Australian ingredients and then you can claim that or you use exotic ingredients and you shouldn't claim that you are Australian made.

ECO CERTIFICATE APPROVED DHA

"All Solaire ® solutions are made with 100% natural ingredients and with full certification under ECO CERT®"

SOLAIRE[®] PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

BATCHES ARE MADE IN LARGE VATS ENSURING QUALITY

Ever made that perfect recipe and the next time was out by 10% on the butter or flour and it was not the same.? Exactly. Quality assurance matters. Only a manufacture can ensure quality. A small private label brand cannot offer a manufactures guarantee nor can they offer the test and measure of quality tolerances. Small batches always have huge inconsistencies.

ARE YOU ACTUALLY PROMOTING ANOTHER SALON?? OR A BRAND THAT GIVES YOU CREDIBILITY!

It is easy to work it out.

Try the exercise - TYPE in the name of the spray tan brand you are using. Does it promote another salon location i.e another business that people can go to, to get a spray tan, taking business away from you or does it actually promote the brand in a professional setting.

FREE SHIPPING IS NOT FREE!

Have you ever wondered how people can offer free shipping on a product? It is simple, it is factored into the cost of the product. It is anticipated that after you buy 1 or 2 litres (or spend over \$100) they are making serious money off you.

Try the example: You purchase spray tan for \$90 a litre (if you pick it up from the manufacture is it still \$90)

Secondly If you are paying \$90 a litre for tan and you buy 2 litres that \$180. You can buy from Solaire[®] and pay \$60 a litre and then pay \$15 for express post so that you have it the next day . A total of \$135.00 SAVING YOU \$45.00 . So in effect you are paying \$15+\$45 = \$60 in shipping for FREE SHIPPING.

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

ACCESSORIES

We carry a full range of accessories - thongs, hair nets, disposable feet, nose plugs, masks, bras, scrunchies & gloves.

SPRAY TANNING EQUIPMENT

Adam Taylor has successfully grown the business to include further vertical integration in larger manufacturing plants and partnership's with the world's largest manufacturer of spray tanning equipment. Solaire® is now the largest independent importer and manufacturer in the tanning industry in Australia. In the last 12 months Solaire® has continued its growth of market share in Australia and has undertaken global expansion into the USA and UK market.

Solaire® can provide all your sunless equipment needs from the Royal Collection™ By Solaire® spray units, Extraction fans, Overspray Reduction, mobile spray units & tents.

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

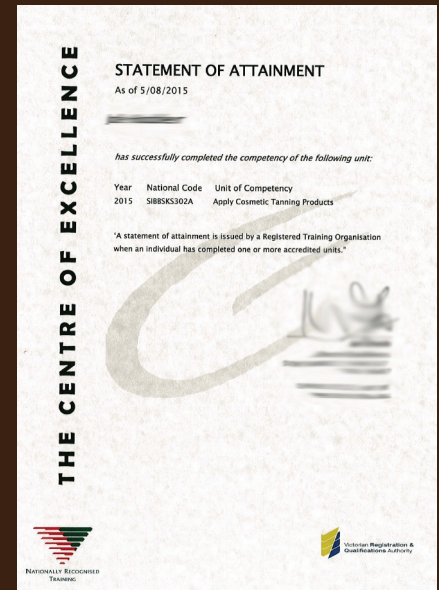

SOLAIRE® SKIN INSTITUTE TRAINING PROGRAM

Solaire® is proud to offer this program, which has been designed by the industries leading manufacturer of spray tan and skincare products since 1994. As demand in the spray tan market grows, so does the need for industry training and know-how. With years of industry experience Solaire® offers the finest training for any aspiring spray tanner, as well as training for technicians who would like to update their qualifications.

ACCREDITED TRAINING

Solaire® are one of the first Spray tan companies to offer fully accredited training courses, held by a TAE qualified trainer.

With the completion of the Solaire® Skin Institutes Master Course you will gain credits towards your Beauty Therapy Course at The Centre of Excellence.

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS HAIR, BEAUTY & TANNING

SOLAIRE® SPRAYTAN SOLUTIONS EXPLAINED

WHAT DOES A 'BASE SOLUTION' ACTUALLY DO?

The way that Solaire® counteracts the dreaded orange effect to achieve a natural chocolate brown, is by creating a base from the opposite side of the colour spectrum to that nasty orange-yellow. Following on the scientific process of the Colourfuze Complex® Green from her husband, Andrea Taylor innovated and developed the world's first and only true Colourfuze Complex® Violet. The Innovation has continued as technology develops.

COLOURFUZE COMPLEX® OUR TRUE BASED TANS COMPARED TO OTHERS

We recognise that the industry has begun copying what we call our products ie. Violet base etc but our technology cannot be copied. Colourfuzed Complex® is trademarked. So you can be assured that the product that you are getting is definitely a different product. Our Base solution you will see will have our trademarked logo and our trademarked process. Guaranteeing these products are unique to us.

Most other brands use bronzers (see examples below) and do document this so that you know what you are getting. However some traders/brands try to confuse you with statements such as

A base tan is not added to DHA - it is an actual manufacturing that is different. Again it's very creative but very misleading. True base tans which are manufactured different to each other should not be mixed. The process of a base tan + DHA tends to indicate the base is made exactly the same way and therefore it can be mixed. This is not a different manufacturing process. In fact this is the same process that was being used some 20 years ago. Solaire® knows because they were manufacturing 20 years ago, these brands that are claiming all these things have only been around for a few years at best.

You may see other trademark LOGO's around however - we reiterate that we, the tanning industry have begun copying what we call our products (E.g. Violet Base Solution™, Green Base Solution™ and Red Base Solution™) by only using bronzers. However our technology cannot be copied. For this reason, you will now see INDUCTAFUZE® on all our tanning solutions. Our packaging has changed but our formulas are exactly the same!

We own the rights to the only piece of medical equipment in the world that can actually change a base - INDUCTAFUZE® you know you are getting the real thing!

OTHER TANNING BRANDS ONLY USE BRONZERS

Black Magic Tan

What does green base, a violet base and a red base really mean when choosing a spray tan?

The honest answer is nothing well kind of.

Many companies will tell you that their solution won't send you Orange because their product is Green Based or Violet based or many of the new bases that are coming into the market. The theory behind this is quite simple, create the base such as green that is at the opposite end of the colour wheel, green is opposite to Orange. It is a good theory however the truth of the matter is that the active ingredient in tanning solution DHA is colourless product.

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

COLOURFUZE COMPLEX® VIOLET

Solaire®'s Colourfuze Complex® Violet achieve a better, deeper tan faster thanks to its new technology that contains a unique scientific process. That are blended in a scientifically different way to that of Colourfuze Complex® Green and in fact differently to all other spray tan solutions. Colourfuze Complex® Violet prevent yellow /orange undertones in the developed tan and adapts to any skin type. When we require a darker, faster tan; Colourfuze Complex® Violet will tend to deliver better results.

COLOURFUZE COMPLEX® GREEN

The Colourfuze Complex® Green tends to prevent red/pink tones in the developed tan. So if your tan tends to throw a bit of these colours then a Colourfuze Complex® Green will better suit you. It will allow you to develop a deeper darker tan in shorter time with less throw of orange.

COLOURFUZE COMPLEX® RED - THE NEW TECHNOLOGY

A perfect blend of result driven ingredients scientifically tested and designed to satisfy you....THE SERIOUS TANNER.

Solaire® - Colourfuze Complex® Red - RBS® -contains:

- EcoCert Approved DHA
- Skin firming ingredients
- Anti oxidants for cell rejuvenation
- Collagen & Melanin for enhanced skin elasticity and anti-aging properties
- 100% Natural Ingredients
- Dry Oil Spray Tan with ColourFuze Complex®
- Fruit Extracts and silky amino acids which leave the skin feeling luxurious.

Check out our RBS® Flyer at <http://solaire.com.au/edit/downloads/Solaire%20-%20Red%20Base%20Solution%20-%20Flyer%20-%20email.pdf> & watch our RBS® Video at <http://solaire.com.au/edit/videos/Solaire-Red%20Base%20Solution.mp4>

SOLAIRE® PROFESSIONAL RESOURCE CENTER FOR ALL THINGS **HAIR, BEAUTY & TANNING**

WHY CAN EVERYONE USE RBS®?

Solaire® Colourfuzze Complex® Red counteracts orange directly on the same side of the colour wheel to create a rose gold result.

Solaire® Colourfuzze Complex® Red is the perfect blend of result driven ingredients scientifically tested and designed to satisfy you.... THE SERIOUS TANNER.

WHY IS THIS IMPORTANT?

Why is this important? Because a client's natural skin tone will affect the way the spray tan appears.

Skin tones can be generalised into two groups. Firstly those with a yellow base and secondly those with a more red base tone. For clients with a more of a red-pink complexion, to counteract these colours an opposite Colourfuzze Complex® Green will perform better. For a client with yellow base colourings a Colourfuzze Complex® Violet on the opposite end of the colour spectrum will deliver the best natural brown results.

Natalie has a yellow skin tone base that would achieve best results with a counteracting violet base.
eg. of yellow skin tone

Anne has a rosy skin tone base that would achieve best results with a counteracting green base.
eg. of pink skin tone

Beware of imitations that are falsely misleading you into thinking you are purchasing a violet base – they are simply adding bronzers that wash away and have NO effect on the base of the tan.

MIXING BASES

Mixing Base Colours is not advised and the best piece of information I can point you if from the hair dressing industry. Mixing several base colours together actually counteract the other colour. If a green base solution is counteracting red/pink tones in the developed tan, then mixing a red base solutions and a green base solution together wont counteract both red/pink and yellow/orange they will actually cancel each other out. Add another colour like and you end up with the same result = GREY. Not only that but there really are only a handful of bases needed to counteract orange. GREEN, VIOLET, RED, BLUE and a mixed base of brown.

IN FACT WHEN YOU MIX BASE COLOURS THEY ALL END UP THE SAME IE. GREY

PROFESSIONAL & RETAIL SUPPORT

Solaire® carries multiple ranges of retail skin care products from Hempz, Hempz Treats, Devoted Creations, Supre Tan and Hempz Body Care. As well as our own Solaire® retail range and the MediterraneanTan® retail range, both which have been specifically designed for that perfect spray tan while leaving your skin feeling fresh and healthy.

We can also design your own skin care range just for you from moisturises, body washes and body scrubs.

THE BRIDAL INDUSTRY'S MOST AWARDED SPRAY TAN! USE SOLAIRE® FOR YOUR MOST IMPORTANT DAY!

SOLAIRE® ANTI-AGEING ADDITIVE **SOLAIRE® ARGAN OIL ADDITIVE**

Solaire®'s Natures Beauty Skin Radiance Additives are a collection of serums, oils, specialized treatments and ingredients to allow customization of any beauty treatment. Use alone for an intense treatment or add to any beauty product to enhance performance.

These wonderful ingredients retain moisture and we all know you can never get enough of that, apply fatty acid and several amino acids (always great for a tanner), helps stimulate collagen production (can I have a truck full please?) and encourage better skin through the production of the intercellular matrix. Peptides work by muting the effect of chemical messengers known as interleukins in the skin that trigger an inflammatory response and also seems to play a role in thickening skin that has become thinner due to age.

- Carry Handle
- Stainless steel 0.5 mm fine needle tip

The Hush Sprinter By Solaire™ It is there to sprint when you are!

- Only 11 kg with gun, 7.2kg without
- 37cm Long x 25cm High x 24cm Wide
- Metal Connections
- 80 dB
- **12 MONTH WARRANTY**

The Hush Sprinter By Solaire™ provides a superior performance delivering a flawless tan through a powerful yet whisper quiet motor. The name says it all - Sprinter - when performance is required.

If you are seeking reliable quality equipment that is capable of managing a heavy work load (requires a cool down break every 30 minutes) then the Hush Sprinter provides the perfect solution.

The professional tanning gun allows you to have ultimate control over air flow and solution control, making sure the tan is applied in a fine, even silky mist directly onto the skin.

SOLAIRE® PROFESSIONAL RESOURCE CENTER
FOR ALL THINGS **HAIR, BEAUTY & TANNING**

**SOLAIRE®'S PURELY SUNLESS AUTOBOOTH IS BETTER BY DESIGN
INTRODUCING THE MOST ADVANCED AUTOMATED
SUNLESS TANNING SYSTEM. EVER.**

WORLDS FIRST
HEATED
AUTOMATIC
BOOTH

THAT WILL LEAVE YOU SPEECHLESS!

PALE TO TANNED IN ONLY
4 MINUTES

FEATURES

Let's keep things simple. Solaire®'s Purely Sunless Autobooth makes you look good by making your customers look good. It does this by being designed smarter, taking less time to use and maintain and by providing a more even and longer lasting tan.

THE BRAINS BEHIND THE BEAUTY.

SOLAIRE® PURELY SUNLESS AUTOBOOTH CLOUD

Session counts, pump pressures and electronic settings can all be tracked and controlled online.

THREE SPRAY HEADS

The booth uses 3 spray heads mounted on different levels to improve the spray pattern and minimize overspray.

TWO BODY POSITIONS

More spray heads mean fewer body positions. Just face forward and turn around.

COMFORT DRYING HEATERS

Heat is applied to the body with the spray to improve drying and spray comfort.

SKIN BRIGHTENING FORMULA

Our solution contains a special formula which helps brighten the skin and give a great looking result.

Including the world's first:

Colourfuze Complex® Violet - VBS® with a choice of Clear, 2 hour or 8 hour solution, **Colourfuze Complex® Green - GBS®** with a choice of 2 hour or 8 hour solution or **Colourfuze Complex® Red - RBS®** with a choice of 2 hour solution.

OTHER BEAUTIFUL FEATURES

4-MINUTE TAN

Customers can prep, tan, dry and step out of the booth in just four minutes.

SPRAY LOGIC

Intelligent spray controls ensure clients are sprayed with consistent volume.

SMART SOLUTION SENSORS

Fluid level sensors are used for each solution notifying the front desk when any solution gets low.

4-SOLUTION CAPACITY

Four high quality pumps hold Pre Spray, 2 Hour or 8 Hour Solutions, Skin Brightening Formula and Post Spray means more session options.

EFFICIENT SOLUTION USE

Solaire®'s Purely Sunless autobooth uses only 70ml of solution per spray.

LARGER SOLUTION CONTAINERS

Containers hold 3.75 Litres of solution.

MEDICAL INDUSTRY DESIGNED

DELIVERS RESULTS

Glenn Silburn of Professional Beauty (The beauty industries go to magazine) chose Santorini Smile™ to get his teeth whitened

9 Shades in One Treatment

Have you thought about offering teeth whitening at your salon?

Adding a new service to your salon can be overwhelming and there is a lot to be considered. It is for this reason Santorini Smile™ has created a teeth whitening package - which is perfect for busy salon owners! Gone are the days of booking in an appointment with your dentist. Using Santorini Smile™ teeth whitening products is quick and easy! The Santorini Smile™ Teeth Whitening process has been designed so staff will never have to put anything in a client's mouth, instead the client has full control of the cosmetic procedure. By purchasing the teeth whitening package you will receive training as well as resources to support your staff.

Glenn Silburn from Professional Beauty dropped by for an onsite salon treatment at BeautyExpo Melbourne. Did you see his before and after photos? It's amazing how quickly Santorini Smile® Teeth Whitening products can actually improve the colour of your teeth!

Santorini Smile™ Teeth Whitening products are made using dental grade ingredients, therefore making it the most effective teeth whitening product for instant and ongoing results. Santorini Smile® is also ACCC compliant and organic.

In addition to salon teeth whitening treatment you could also offer your clients take home teeth whitening kits or Santorini Smile™ Activated Teeth Whitening Charcoal.

So why wouldn't enjoy a whiter, healthier smile, the natural way?

"I recently just got my teeth whitened. I absolutely love the results! I will definately be back!"

A client of Danielle's at Blush Beauty & Tanning NSW
